

Dipen Kukadiya

Java/Full-Stack Engineer

Phone: +917016306728 | Email: dipenkukadiya@gmail.com | City: Porbandar.

PROFESSIONAL SUMMARY:

Java/Full-Stack Engineer with 3+ years of experience building and maintaining enterprise and healthcare SaaS applications. Strong experience with Java, Spring Boot, Hibernate/JPA, REST APIs, React, JavaScript, MySQL, HBase, Redis, and AWS. Experienced in EHR workflows, healthcare integrations, billing, pharmacy, laboratory, patient portals, and scalable multi-tenant applications.

TECHNICAL SKILLS:

Languages & Backend : Java, Spring Boot, Spring Framework, Hibernate, Quarkus, JPA, REST APIs
Frontend : React, JavaScript, HTML, CSS, Bootstrap, jQuery
Database & Data : MySQL, HBase, Solr, Redis, JDBC
Architecture & Cloud : Microservices, MVC, ORM, AWS, Docker, Jenkins
Testing & Tools : JUnit, Git, Jira, XML, FTL, Jasper Reports

PROFESSIONAL EXPERIENCE:

ICare.com LLC - JAVA/Full-Stack Developer

Nov 2024 – Present | Remote | Florida, USA

- Developed and maintained core modules of a cloud-based healthcare EHR covering patient registration, encounters, orders, medications, assessments, scheduling, billing, immunizations, procedures, and user management.
- Built healthcare billing workflows including CPT/ICD-10 coding, charge capture, insurance claims, and payment processing.
- Developed pharmacy and laboratory workflows covering prescriptions, refills, e-prescribing, lab orders, specimen tracking, and results.
- Enhanced patient portal functionality for clinical records, prescriptions, lab results, billing, and appointments.
- Integrated Surescripts services for e-prescribing, medication history, pharmacy connectivity, and insurance eligibility verification.
- Developed clinical templates, assessments, reporting, and operational dashboards supporting healthcare providers and business operations.
- Worked across frontend and backend components while maintaining data integrity and scalable healthcare workflows.

Xite Technology (ICare.com LLC) – Junior Java Developer

Mar 2024 – Oct 2024 | Remote | Vadodara

- Contributed to a cloud-based SaaS EHR using Java, HTML, CSS, and JavaScript.
- Worked with MySQL and HBase for healthcare data management and analytics.
- Supported AWS-based deployment, maintenance, and application scalability.
- Contributed to multi-tenant architecture and Enterprise healthcare functionality.

GTCSYS – Junior Java Developer

Aug 2023 – Feb 2024 | On-site | Ahmedabad

- Developed and troubleshooted backend APIs and application functionality.
- Investigated and resolved bugs while collaborating with development teams.
- Used Jira for task tracking and supported backend performance improvements.

EDUCATION:

Rai University | B.Tech Information Technology | 8.9 CGPA | Gold Medalist | 2020

ACHIVEMENTS & CERTIFICATIONS:

- **Microsoft Code for Future Hackathon — Winner | 2020**
Developed a smart traffic control system using Python and JavaScript to reduce congestion, carbon emissions, and travel time.
- **RFID-Based Billing System — 2019**
Developed a Java GUI integrated with Arduino/RFID to automate billing and reduce bill-generation time.
- **Red Hat Certified System Administrator**
- **Software Testing – STAD Solution**
- **Cloud Computing – STAD Solution**
- **Professional Developer Certificate – Microsoft**

PROJECT:

Advanced Digital Ration Card | 2020

- Developed a platform providing **real-time ration stock availability** at nearby distribution stores.
- Implemented an **online token management system** to reduce waiting times and improve customer flow.
- Improved distribution efficiency by **reducing crowding and streamlining the overall ration collection process**.
